### Benefits

- *Compatible with 9, 10 and 15 digit microchips*
- *Your cat does not need a collar*
- *Selective RFID entry is robust and secure*
- *Battery powered (4x AA batteries)*
- *Batteries typically last more than 6 months*
- *Low level battery indicator*
- *Stores up to 32 cats' identities*
- *Manual 4-way lock allows you to override the electronic lock*
- *2-Year manufacturers warranty*
- *The tunnel design prevents intruders pulling open the door and ducking in*
- *Robust contemporary design*
- *Door held in place by a magnet to prevent it banging in the wind*

### Mounting

- Required hole size: 166mm(w) x 172mm(h)
- Mounting adaptors are available to complete installations in windows and walls. Suitable for holes 210mm to 260mm in diameter.
- SureFlap has a 70mm long tunnel which is suitable for most window and wall mounting applications. For wall mounting 50mm long tunnel extenders are available.

### Box contains

- Sureflap main assembly
- Sureflap exterior frame
- Screw pack with 3 different length screws
- Instruction manual – English, German, French, Spanish, Italian, Danish
